| 10/822,499      | 04/12/2004  | Christopher C. McConnell | MSFT-3513/302456.01 | 3038             |

TITLE OF INVENTION: SYSTEM AND METHOD TO RESOLVE AMBIGUITY IN NATURAL LANGUAGE REQUESTS TO DETERMINE PROBABLE INTENT

| APPLN. TYPE    | SMALL ENTITY | ISSUE FEE DUE | PUBLICATION FEE DUE | PREV. PAID ISSUE FEE | TOTAL FEE(S) DUE | DATE DUE   |
|----------------|--------------|---------------|---------------------|----------------------|------------------|------------|
| nonprovisional | NO           | \$1510        | \$0                 | \$0                  | \$1510           | 09/16/2009 |

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS** FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

# **PART B - FEE(S) TRANSMITTAL**

**Complete and send this form, together with applicable fee(s), to:** **Mail** **Mail Stop ISSUE FEE**  
**Commissioner for Patents**  
**P.O. Box 1450**  
**Alexandria, Virginia 22313-1450**  
**or Fax** **(571)-273-2885**

**INSTRUCTIONS:** This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

## **Certificate of Mailing or Transmission**

I hereby certify that this Fee(s) Transmittal is being deposited with the United States Postal Service with sufficient postage for first class mail in an envelope addressed to the Mail Stop ISSUE FEE address above, or being facsimile transmitted to the USPTO (571) 273-2885, on the date indicated below.

1. Change of correspondence address or indication of "Fee Address" (37 CFR 1.363).

☐ Change of correspondence address (or Change of Correspondence Address form PTO/SB/122) attached.

☐ "Fee Address" indication (or "Fee Address" Indication form PTO/SB/47; Rev 03-02 or more recent) attached. Use of a **Customer Number is required.**

2. For printing on the patent front page, list

(1) the names of up to 3 registered patent attorneys or agents OR, alternatively,

1

(2) the name of a single firm (having as a member a registered attorney or agent) and the names of up to 2 registered patent attorneys or agents. If no name is listed, no name will be printed.

2

3

3. ASSIGNEE NAME AND RESIDENCE DATA TO BE PRINTED ON THE PATENT (print or type)

PLEASE NOTE: Unless an assignee is identified below, no assignee data will appear on the patent. If an assignee is identified below, the document has been filed for recordation as set forth in 37 CFR 3.11. Completion of this form is NOT a substitute for filing an assignment.

(A) NAME OF ASSIGNEE

(B) RESIDENCE: (CITY AND STATE OR COUNTRY)

Please check the appropriate assignee category or categories (will not be printed on the patent): ☐ Individual ☐ Corporation or other private group entity ☐ Government

4a. The following fee(s) are submitted:

- ☐ Issue Fee  
☐ Publication Fee (No small entity discount permitted)  
☐ Advance Order - # of Copies \_\_\_\_\_

4b. Payment of Fee(s): (Please first reapply any previously paid issue fee shown above)

- ☐ A check is enclosed.  
☐ Payment by credit card. Form PTO-2038 is attached.  
☐ The Director is hereby authorized to charge the required fee(s), any deficiency, or credit any overpayment, to Deposit Account Number \_\_\_\_\_ (enclose an extra copy of this form).

5. Change in Entity Status (from status indicated above)

- ☐ a. Applicant claims SMALL ENTITY status. See 37 CFR 1.27. ☐ b. Applicant is no longer claiming SMALL ENTITY status. See 37 CFR 1.27(g)(2).

NOTE: The Issue Fee and Publication Fee (if required) will not be accepted from anyone other than the applicant; a registered attorney or agent; or the assignee or other party in interest as shown by the records of the United States Patent and Trademark Office.

Authorized Signature \_\_\_\_\_

Date \_\_\_\_\_

Typed or printed name \_\_\_\_\_

Registration No. \_\_\_\_\_

This collection of information is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 368 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 368 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--**

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to 2/17/2009.
2. ☒ The allowed claim(s) is/are 1-6, 9-16 and 19-24.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some\* c) ☐ None of the:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

\* Certified copies not received: \_\_\_\_.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.  
**THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.**

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
- (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
- 1) ☐ hereto or 2) ☐ to Paper No./Mail Date \_\_\_\_.
- (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date \_\_\_\_.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

**Attachment(s)**

1. ☐ Notice of References Cited (PTO-892)
2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948)

Supervisory Patent Examiner, Art Unit 2169

***DETAILED ACTION***

***REMARKS***

1. In response to the amendment filed on February 17, 2009, claims 1-26 are pending in the application, of which claims 1, 9, and 22 are presented in independent form.

***EXAMINER'S AMENDMENT***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unaccepted to applicant, an amendment may be filed as provided by 37 CFR 1,312. To ensure consideration of such an amendment, it **MUST** be submitted no longer later than the payment of the issue fee.

3. Authorization for this examiner's amendment for specification and claims was given in a telephone interview with Ms. Amy O. Kwan (Phone No. 206-332-1380) (Registration number 59,829) for applicant on May 28, 2009.

4. The instant Examiner's amendment is directed to said entered amendment.

**IN THE SPECIFICATION:**

In the specification page 5 paragraph 19 amended and will **replace** with the following:

"[0019] Computer 110 typically includes a variety of computer readable media. Computer readable media can be any available media that can be accessed by computer 110 and includes both volatile and nonvolatile media, removable and non-removable media. By way of example, and not limitation, computer readable media may comprise computer storage media and communication media. Computer storage media includes both volatile and nonvolatile,

Art Unit: 2164

removable and non-removable media implemented in any method or technology for storage of information such as computer readable instructions, data structures, program modules or other data. Computer storage media includes, but is not limited to, RAM, ROM, EEPROM, flash memory or other memory technology, CDROM, digital versatile disks (DVD) or other optical disk storage, magnetic cassettes, magnetic tape, magnetic disk storage or other magnetic storage devices, or any other medium which can be used to store the desired information and which can be accessed by computer 110. Communication media typically embodies computer readable instructions, data structures, and program modules ~~or other data in a modulated data signal such as a carrier wave or other transport mechanism~~ and includes any information delivery media. The term "modulated data signal" means a signal that has one or more of its characteristics set or changed in such a manner as to encode information in the signal. By way of example, and not limitation, communication media includes wired media such as a wired network or direct-wired connection, ~~and wireless media such as acoustic, R.F., infrared, and other wireless media.~~ Combinations of any of the above should also be included within the scope of computer readable media."

## IN THE CLAIMS:

Claims 1, 9, and 22-24 should be amended to the claim language as shown below. Claims 7-8, 17-18, and 25-26 are cancelled herein. All other claims i.e. 2-6, 10-16, and 19-21 are accepted as filed on February 17, 2009. The complete set of claims will **replace** with the claims 1-26 as filed on February 17, 2009 as follow:

1. (Currently Amended) A computer implemented system for resolving ambiguity comprising:

a processor;

the processor operatively coupled to a computer readable storage medium including program modules that include executable instructions, the computer readable storage medium including:

at least one program module that receives inputs;

at least one program module configured to parse a grammatical structure of the received inputs to identify a token not present in the received inputs, wherein the token includes a word that is statistically associated with documents that have grammatical structures similar to the received inputs;

at least one program module configured to add the token to the received inputs thereby generating a modified inputs; and

at least one program module configured to generate from the modified inputs, a collection of ranked interpretations representing a list of probable intent comprising a set of fragments of data types structurally compatible to other fragments in the set, wherein a fragment of the set of compatible fragments is generated by analyzing a grammatical structure of one or more of the modified inputs at a linguistic level, wherein the collection of ranked interpretation is determined based on a number of matching data types;

connecting to the plurality of search providers and receives a collection of search results from at least one of plurality of search providers and displaying results according to a specified expansion policy, in relevance order, as blocks of results from search providers, merged results from multiple search providers in relevance order and eliminate duplicate results.

2. (Original) The system of claim 1, wherein the inputs comprise a natural language request.
3. (Original) The system of claim 1, wherein the inputs comprise a filter.
4. (Original) The system of claim 1, wherein the inputs comprise a bias.
5. (Original) The system of claim 1, wherein the inputs comprise a culture.
6. (Original) The system of claim 1, wherein the inputs comprise a schema for data to be operated upon.
7. (Cancelled)
8. (Cancelled).
9. (Currently Amended) A computer implemented method for resolving ambiguity in a natural language request, the method comprising:  
in response to receiving a natural language request and at least one input at a computer system, parsing a grammatical structure of the at least one input to identify a token not present in the at least one input, wherein the token includes a word that is statistically associated with documents that have grammatical structures similar to the at least one input;

adding the token to the at least one input thereby generating a modified at least one input;  
generating a plurality of ranked interpretations representing a list of probable intent  
comprising a set of fragments of data types structurally compatible to data types in the modified  
at least one input, wherein a fragment of the set of compatible fragments is generated by  
analyzing a grammatical structure of the request at a linguistic level; and  
performing an action in response to at least one of the plurality of ranked interpretations;  
connecting to the plurality of search providers and receives a collection of search results  
from at least one of plurality of search providers and displaying results according to a specified  
expansion policy, in relevance order, as blocks of results from search providers, merged results  
from multiple search providers in relevance order and eliminate duplicate results.

10. (Original) The method of claim 9, wherein the action comprises performing a  
search.

11. (Original) The method of claim 9, wherein the action comprises executing a command  
represented by the at least one of the plurality of ranked interpretations.

12. (Original) The method of claim 9, wherein the at least one input comprises a  
filter.

13. (Original) The method of claim 9, wherein the at least one input comprises a bias.

14. (Original) The method of claim 9, wherein the at least one input comprises a culture.

15. (Original) The method of claim 9, wherein the at least one input comprises a schema for data upon which the action will be taken.

16. (Original) The method of claim 9, wherein generating the plurality of ranked interpretations comprises:

analyzing the natural language request to determine a plurality of relevant terms,  
associating each of the plurality of relevant terms with at least one structure of a plurality of structures in a schema associated with data upon which the action will be taken;  
combining terms associated with the at least one structure to generate at least one interpretation of the plurality of interpretations; and  
assigning a rank to the at least one interpretation.

17. (Cancelled)

18. (Cancelled)

19. (Original) The method of claim 9, further comprising receiving a set of parameters.

20. (Original) The method of claim 19, wherein the set of parameters comprises an expansion policy.

21. (Original) The method of claim 19, wherein the set of parameters comprises an interpretation generation policy.

22. (Currently Amended) A computer-readable storage medium comprising computer-executable instructions for:

in response to receiving a natural language request, parsing the grammatical structure of the natural language request to identify a token not present in the natural language request, wherein the token includes a word that is statistically associated with documents that have grammatical structures similar to the natural language request;

adding the token to the natural language request thereby generating a modified natural language request;

analyzing the modified natural language request by analyzing a grammatical structure of the modified natural language request at a linguistic level to determine a plurality of relevant terms;

associating each of the plurality of relevant terms a data type to generate at least one fragment;

combining the at least one fragment with other compatible fragment to generate at least one interpretation of the natural language request representing a probable intent, wherein compatibility is determined based on matching words and matching data types;

assigning a rank to the at least one interpretation based on the number of matching data types;

connecting to the plurality of search providers and receives a collection of search results from at least one of plurality of search providers and displaying results according to a specified expansion policy, in relevance order, as blocks of results from search providers, merged results from multiple search providers in relevance order and eliminate duplicate results; and  
interpretation providing the ranked interpretation to a search provider.

23. (Currently Amended) ~~[[A]]~~The computer-readable storage medium of claim 22, comprising further computer-executable instructions for performing a search.

24. (Currently Amended) ~~[[A]]~~The computer-readable storage medium of claim 22, comprising further computer-executable instructions for executing a command represented by the at least one interpretation.

25. (Cancelled)

26. (Cancelled)

### ***ALLOWANCE***

5. Claims 1-6, 9-16, and 19-24 are allowed over the prior art made of record.

### ***REASON FOR ALLOWANCE***

6. The prior art of record, Calcagno et al. (US 2003/0176,999 A1) describes a systems and methods for performing semantic analysis that interprets a linguistic structure output by a natural language linguistic analysis system. The semantic analysis system converts the linguistic output by the natural language linguistic analysis system into a data structure model referred to as a Semantic Discourse Representation Structure (SemDRS) (*See Calcagno et al. Par. 7*). Furthermore Calcagno et al. teach a system applies mapping rules which maps from portions of various possible underspecified discourse representation structure (UDRS) to SemDRS fragments to generate SemDRS. When the mapping is complete, the SemDRS fragments are assembled, if possible, according to the box structure of the UDRS (*See Calcagno et al. Par. 10*). Also as defined in Calcagno et al., the result of the application of the semantic mapping rules is a set of interpretation fragments that specify a mapping between a set of UDRS box elements and a set of SemDRS box elements (*See Calcagno et al. Par. 251*). Bolotinikov et al. (US 2003/0009352 A1) discloses a method of scoring interpretation which provides an interpreter certification process for achieving a defined interpretation competency level in language pairs in industry-specific settings comprising the steps of: selecting interpreters by evaluating language proficiencies and interpretation skills of at least one interpreter candidate in at least one language pair; training at least one such selected interpreter in procedural standards of at least: interpretation, customer service, ethics, and call handling for different industries (*See Bolotinikov et al.*

*Par. 10*). However, after careful consideration of the amendment filed on February 17, 2009, the applicant extensively and specifically pointed out how the claim amendments overcome the prior art of the record. Also the prior art made of record, do not disclose, teach, or suggest (in combination with other features in the claim), the claim limitation of, "...generating a plurality of ranked interpretations representing a list of probable intent comprising a set of fragments of data types structurally compatible to data types in the modified at least one input, wherein a fragment of the set of compatible fragments is generated by analyzing a grammatical structure of the request at a linguistic level; and performing an action in response to at least one of the plurality of ranked interpretations; connecting to the plurality of search providers and receives a collection of search results from at least one of plurality of search providers and displaying results according to a specified expansion policy, in relevance order, as blocks of results from search providers, merged results from multiple search providers in relevance order and eliminate duplicate results" in combination with the remaining elements as cited in independent claims 1, 9 and 22 as whole.

7. Dependent claims 2-6, 10-16, 19-21, and 23-24 being further limiting to the independent claims 1, 9, and 22 and enabled by the specification are also allowed.

### ***CONCLUSION***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fariborz Khoshnoodi whose telephone number is 571-270-1005. The examiner can normally be reached on M-TH every other F 8:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Rones can be reached on 571-272-4085. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
